

*Fully automatic
random access
clinical chemistry analyzer
with ISE option*

AMS 300i

AMS 300i

Features:

Up to 450 tests/hour W/ISE
220 μ l – 400 μ l reagent volume/test
Reagents cooling
Cuvettes chemical washer
Continuous input of samples
Reagent input during tests running
Sample predilution
Auto re-run with auto-dilution
Statistics of controls, calibrators and patients
Interferences management
Patients advanced search
ISE optional
